About People and Things

By C. B. McDowell

TOWNSEND MEETING—A large number of Townsendites assembled in the city hall last night to hear the speaker, who was introduced by the Rev. Dr. J. W. McKim. The speaker, who was introduced by the Rev. Dr. J. W. McKim, was introduced by the Rev. Dr. J. W. McKim.

but he and his efficient crew of agents are getting the business

[illegible]

of the Ellis C. Thomas, Mr. Snell, who is a well-known and earnest explanation of the purpose of the workings of the Townsend Plan. Mr. Thomas introduced Mr. Trowl, who probably will be reversed on the history and program of the movement as anybody in the whole area. He said that he is a charter member of the first club formed, which was in 1935, and that he was the founder. Dr. R. E. Townsend was shaving in his bathroom in the morning when he noticed the old window and saw three elderly women digging garbage out of the yard.

APPENDICES—Dr. W. R. Thomas, Townsend Plan, carried on his son, Joe, and 15-year-old son, young Macon to a hospital in Troy, N. Y., with appendicitis. Both young men were released.

Dr. Crook reports that the other band of Townsend Plan members was digging nicely. On his

to his wife and took a wife. "I'm going to make out my life-work to be the same as that of the people with such conditions and formulate a plan to correct them." How well he kept his word is attested by the fact that the Town of Drayton was born there in Drayton's bedroom, has surged like a comet until there are more than 5,000 cities, in every State, and the population of the United States is 17,000 millions each, with 25 new cities added each week, and the number of people is increasing at the rate of 100,000 a day. The number in the San Francisco club

young was in a critical condition, pancreas having set in when they reached the hospital.

KINSTON WON—For the third time the Kinston basketball team has won the United District tournament championship. Open meetings were held in the city hall and the Kinston boys brought together the cream of the game talent in this section. A large number of exhibition games were played, but the Kinstonites overcame all opposition and won the championship. Coach Larkins' basketballers are the

is 10,656 and there are many who are not registered voters. It would be hard to find out how many he has traveled from Florida to Georgia and he finds it hard to find out how many he has everywhere he goes. His movement is so strong and wide-spread that it is difficult for a candidate cannot go to a town or office unless he endorses the movement. Similar conditions exist in other parts of the country. Mr. Troth gave a clear and convincing description of the Plan and urged his high school friends, James E. Tolson, whom he christened "The Talc Sycamore," in his class of the district. The chairman of the board, over the top of Baker Hill, Highland Home and Hartford, the Kingston-Hartford branch, said that the plan was the Kingston cagers took no chances in the game against Hartford. They had a record of 36 to 0, crushing the Geneva Countians by the lopsided score of 36 to 8. The Kingston cagers were crowned with a record no tournament has ever known. They won the season, even defeating the Hartford suburb Freshmen on the 10th of the season. The Kingston only team to defeat the Kingston team during the season. Coach Lar-

District. He emphasized the fact that our present Congressman had been elected to the House of Representatives by the people of the entire State. He then read the common courtesy of answering its questionnaire as to the various questions asked by the Townsend Plan. Mr. Kington stated that Townsend claims will be paid for throughout the Third Congressional District. He said that like many other successful advocates of this "God-given" plan to give to the aged, the plan will give the younger people and do away with the depression by building up the various parts of the country and the burdensome surpluses, is traveling to Tucson, where they will take part in the State tournament. Mr. Kington said that this makes the third time the Kington team has entered the State tournament. He said that he was going to be the champion and fans in this section are hoping the Kington team will bring home the bacon this time.

PRETTY HOME—Mrs. Nell B. Cooper's home looks very pretty in its new dress of white paint. In fact, it is now one of the most attractive places in the city. Wonderful what paint will do.

ADDITION—W. S. Reeves is building an addition to his novelty shop. The 20x30 foot structure will be built on the east side of the Masonic building and will be used as a work shop.

FISH SCARCITY—This section is suffering from a fish famine. W. T. (Fisher) Parker reports that the fish markets he was unable to visit the fishermen saying that this has been the worst fishing season they have experienced in several years. Mr. Parker is expect-

past two weeks. The history shows that the Emergency Aid is the largest source of money for the city's welfare circles, since the year 1843, to get through its first year's business and to get the city's welfare circles for funds to tide it over until full-time business could put the company's payments in order. According to the record, the Emergency Aid has paid its own way from the start and still claims to be self-sufficient. It is not promptly and in full. Those claims are fitting about the country at this hour of the day and night, and has turned up another new car.

SATISFIED

Mr. J. F. Brunson, Agent:
I am well pleased with settlement given me by the Hartford Fire Insurance Co., covering tornado loss which happened in Jan., 1936. I am glad to renew coverage on home with this company. I appreciate kindness shown me by their agent.

J. B. CARMICHAEL
It is the company who pays the loss—Know the company carrying your protection. We want to serve you!
